- Critical Thinking
- Meeting Deadlines
- Quick Learner

WORK EXPERIENCE

ICOG - Any One Can Code 2024
2024 Summer Camp Trainer

- I worked as a trainer for the 2024 iCog Anyone Can Code summer camp, where I taught web development (HTML, CSS, JavaScript) and Python fundamentals. I guided young learners through hands-on coding projects, fostering their problem-solving skills and creativity. My role involved making complex programming concepts accessible and engaging.

Addis Ababa Univerity
Information Technology and Engineering (SiTE) 2025
Flutter Mobile app developer

- Contributed to the development of the Integrated News Management System (INMS) for the Ethiopian Press Agency.
- Implemented secure authentication by integrating with Orchard Identity Server.
- Developed and maintained cross-platform mobile features using Flutter and Dart.
- Integrated GraphQL and RESTful APIs for efficient data communication.
- Collaborated with designers and developers to deliver a high-quality, user-friendly application.

Origin Technologies 2026
Flutter Mobile app developer

- Developed CASA, a real estate marketplace platform.
- Implemented authentication using Firebase.
- Built cross-platform mobile apps for Android and iOS.
- Used Riverpod for state management
- Deployed applications to Google Play Store and Apple App Store.
